

Hands on Future Tech -- Middle School Outreach Program

[www.futuretech.gatech.edu]

Saturday, November 4, 2017; 9:00am – 2:15pm

Georgia Tech's Molecular Science & Engineering (MoSE) Building

This one day event is open to all **BOYS and GIRLS** in the 6th-8th grades. At the event students will interact and participate in hands-on STEM (Science, Technology, Engineering, and Math) demonstrations with college students, faculty, and industry professionals.

The event will take place on **Saturday, November 4, 2017** from 9:00 am – 2:15pm, at the Molecular Science & Engineering (MoSE) building on Georgia Tech's campus ([901 Atlantic Drive NW, Atlanta, GA 30332](#)). A visitors parking deck is located next to the building on State Street.

The purpose of this event is to make STEM disciplines and concepts understandable, relevant, interesting, and applicable in student's everyday life. The program will also include speakers, a parent's session, and a career panel that provides information on STEM careers and the opportunities available in these areas. Lunch will be provided.

To register and for further information, please go to: www.futuretech.gatech.edu

There are limited slots for participation and you are encouraged to have parents register as soon as possible. Since we would like to share this opportunity with as many students as possible - there is a limit of eight students per school.
