Parents, these are uncharted waters for us all and we need you to look for and recognize emotions in our children that we normally do not see. Remember our counselors are here to

support our children but we all have to do our part to control the imprint it leaves on the social well-being of our children.

Our children are using the internet more than ever during this time and it's hard to keep up with what they are doing. I have included an attachment and link with a list of applications that SmartSocial has deemed as good, medium or bad that our children could be using or might be invited to use. Please take the time to look at what is being downloaded to your child's phone and computers and help them to make better decisions and choices when using the apps.
